The streets of Heaven are pure gold, Preached Parson Ezra Dudd, And the streets of the town of Pickens Are of pure and juicy mud.

The News Review of Current Events, by Edward W. Pickard, which The Sentinel publishes weekly, is the finest thing of its kind being publish- ed in any periodical today. In this class of writing Mr. Pickard is in a class by himself. By reading this review alone one may keep reliably posted on the affairs of the country. It is not like reading a story in a daily paper today only to have it contradicted tomorrow, take another angle the next day, and so on until the average reader does not know "where he is at." Pickard's dope is all reliable and so plain that anybody can understand it. Begin reading it this week and you will agree with us that this feature alone is worth more than the three cents a week The Sen- tinel costs.

## CARD OF THANKS

We wish to return thanks, first to Almighty God, and then to the good people of Pickens who worked so hard and faithful last Saturday morning and saved our property from being destroyed by fire. Our hearts are filled with gratitude to all.

## HAS CO-OPERATIVE MARKET- ING INCREASED CALIFOR- NIA'S PROSPERITY.

An official bulletin has just come from the United States Census Bu- reau which incidentally sheds a lot of light on co-operative marketing.

Some scoffers have said that they doubted whether California growers under co-operative marketing had enjoyed much more prosperity than other farmers. Well, the United States Government, through its Cen- sus Bureau, has just issued a state- ment naming the fifty richest agri- cultural counties in the United States—the fifty counties where farmers are making most money.

Were any of these fifty richest farming counties in California?

The very first or richest one of all was one of the California co-oper- ative marketing counties.

So was the second richest.

The fourth, seventh and eighth richest were also California co-oper- ative marketing counties.

In other words, of the eight rich- est farming counties in America, five were from California's co-operative marketing counties. And of the en- tire list of the fifty richest American farming counties, thirteen were from California.

No wonder the California Bank- ers' Association at its recent meet- ing, recognizing how greatly co-oper- ative marketing has increased the farmers' bank deposits, officially declared through its agricultural committee:

"Co-operative marketing of farm products of all kinds is undoubtedly the ideal method. Banks can well afford the encourage any organization created for this purpose. Any bank- er who is against co-operative mar- keting is opposing one of the saving factors of agriculture."

## REPLY TO MR. NATIONS

Mr. L. W. Nations asked for an explanation of how it was that the first day of January could be the first day of the week, the first day of the year and also be the seventh day of the week. Here is the ex- planation: Until the birth of Jesus time was reckoned under the Jewish dispensation which recognized the sev- enth day as the Sabbath. The Sab- bath, or seventh day represented the finished Creation of God, for he rested from his labors.

After the birth of Jesus, time has been reckoned under the Christian dispensation, for his birth ushered in a new era, and when he died and rose again for our justification on the First Day of the Week his resur- rection represented the finished work of God of the plan of salvation. Hence, Christians everywhere observe the first day of the week as the Sabbath in recognition and commem- oration of the great sacrifice of our Lord for our redemption. Therefore it is the Lord's day.

C. E. Robinson.

In answer to Mr. L. W. Nations' question in last week's Sentinel:

We think Christ nailed all the Jew- ish ordinances to the cross, such as keeping the Jewish Sabbath and cir- cumcision and tithing: Let no man, therefore, judge you in meat, or in drink, or in respect of an holy day, or of the new moon, or of the sab- bath days. Col. 2:16.

Again, in same chapter, Blotting out the handwriting of ordinances that was against us, which was con- trary to us, and took it out of the way nailing it to the cross. Reader.

## OLD MILL STILL GRINDING

Christmas is over but the little mill continues to grind. On last Sunday the 8th inst. the old miller thinking as Christmas had just passed and all of a matrimonial inclination had no doubt done cast their lot for a while until dan cupid could get in some more work, the services of the little mill would not be needed on that day and the old miller motored off to the little town of Pendleton.

On his return he was informed by his better half that the little mill had had a call and the customer had left word that as he had heard of the little mill grinding so many "turns" and giving entire satisfaction he was anxious to try it and was perfectly willing to wait the old miller's return and would ride around and return about the time the old miller was expected.

So the old miller returned about 3 p. m. and at 3:30 p. m. Mr. W. C. Adeox and Miss Bertie Mae Howe appeared and asked to be made man and wife.

As the groom was armed with the proper authority giving the consent of the bride's father, as the bride was just sweet sixteen, the nuptial knot was soon tied and now the happy couple are receiving the congratula- tions of their many friends. The groom is a son of Mr. and Mrs. C. C. Adeox and the bride a daughter of Mr. and Mrs. J. A. Howe all of Norris.
